UNSEEN IN A SAW

There are unseen things about this saw. You cannot see the fine texture of the steel, takes a sharp, cutting edge and holds it longer than any other saw. You cannot see the toughness of the blade, which will not break or split. SILVER STEEL, the most durable steel in the world, is made on the Atkins secret process, and used only in Atkins saws. You cannot see the perfectly finished teeth of the blade; runs easily, without buckling. But you can see the Atkins trade-mark and it is your protection when you buy a saw. We saw-makers and our trade-mark on a saw means that it is our own make and that we are justly proud of it. We make all types and sizes of saws for all purposes. Atkins Saws, Chain Saws, Portable Saws, Scorpers, etc., are sold by all good hardware dealers. Catalogue on request.

WHY STONE WALLS ARE DAMP

Sudden Changes of Weather Responsible—Easy to Remedy.

The walls of a stone house, and sometimes of a brick house, are covered with dampness. This is due to the very same causes by which dew is deposited on grasses or moisture on the side of a glass or pitcher that is filled with ice water and brought into a warm room. The walls become cold, and as stone is a nonconductor of heat, they remain cold for a long time. When the weather changes suddenly from cold to warm the air becomes filled with moisture, for the warmer the air the more moisture it will absorb. When this warm air strikes the cold walls the moisture is deposited on it from the air, which is suddenly cooled by contact with them, and as the warm air is continually coming in contact with the cold walls, the dampness accumulates until it appears like a dew upon them, and pours down in streams at times. It is easily prevented. No plaster should be put directly upon brick or stone, but putting strips should be nailed to the walls and laths put on these. Cellars are frequently made very damp in the same way by too much ventilation in warm weather.

FOR MAINTENANCE OF HEALTH.

Few Simple Rules of Living All That Is Required.

The requirements of health can be counted on one hand. They are: Good air, good food, suitable clothing, cleanliness and exercise and rest. The first two requirements affect the blood and as the blood circulates all over the body, including the brain, every part is affected. Fresh air affects the purity of the blood. The freshest air is out of doors and it is the duty of every one who wishes to be in good health to spend a certain amount of time in the open air. Good food is not necessarily expensive food. Exercise and rest should alternate and balance each other. It is quite possible to take too much exercise, and this side of the question must be guarded against as well as the other. Women, as a rule, do not rest sufficiently. Every woman should try during the day to get a few minutes' rest, even if it interferes with her regular work. It is impossible for her to attend to the health and welfare of her family if her own health suffers from overwork and lack of rest.—Montreal Herald.

First Apples Brought to America.

John Winthrop is usually held responsible for the introduction of the apple into the New World. But as a matter of fact when Winthrop anchored off Cape Ann the reclusive Blackstone already had apple trees growing about his cabin at Shawmut Neck. Some of the best of our American apples were brought over by the Huguenots, who settled in Flushing, L. I., in 1660, and planted there, among others, the pomme royale or spice apple.

AWFUL ITCHING ON SCALP.

Hair Finally Had to Be Cut to Save Any—Scalp Now in Good Condition Cured by Cuticura.

"I used the Cuticura Soap and Ointment for a diseased scalp, dandruff, and constantly falling of hair. Finally I had to cut my hair to save any at all. Just at that time I read about the Cuticura Remedies. About every week I shampooed my hair with the Cuticura Soap, and I used the Ointment twice a week. In two months' time my hair was long enough to do up in French twist. That is now five years ago, and I have a lovely head of hair. The length is six inches below my waist line, my scalp is in very good condition, and no more dandruff or itching of the scalp. I used other remedies that were recommended to me as good, but with no results. Mrs. W. F. Griess, Clay Center, Neb., Oct. 23, 1905."

Water Supply Decreases.

A shrinkage in the world's water supply has been predicted by M. Martel, the French explorer of caves, in a lecture. Through the erosion and corrosion of the earth surface, he said, the water level is being continually lowered, and unless measures for preventing this were adopted, a large part of the world will a few centuries hence die of thirst.

SIXTEEN MISSING AFTER LANDSLIDE

Eight Houses Drop Hundred Feet Into Brickmaking Excavation.

Buildings Take Fire and Firemen Are Unable to Save Them—Many People Perish in the Flames. Prominent Families Being Wiped Out.

Haverstraw, N. Y.—Sixteen persons perished in a landslide which occurred here about 11 o'clock Monday night. The dead were from prominent families in the town.

The landslide occurred at the end of Rockland street, and eight houses were carried over a clay bank into the brick excavations, dropping down a hundred feet.

The slide is supposed to have been caused by the fact that those working in the brick yards dug too close to the end of the street. Most of the people were in bed when the catastrophe took place.

Immediately after the slide the houses caught fire and the persons who went down perished in the flames it is believed.

The great slip of clay carried away the water main which supplied the fire hydrants and when the firemen arrived at the scene they found no water with which to extinguish the blaze in the ruins of the houses which had so suddenly been sent over the bank.

PATTISON TAKES THE OATH.

Watches Parade of Troops From Glass Cage.

Columbus, O.—As curious a spectacle as ever graced a similar occasion was seen here Monday, when John M. Pattison, having taken the oath as governor, reviewed the parade of 4,000 troops from the glass cage.

Mr. Pattison, who has been ill for some time, stood in the open long enough to take the oath, although the weather had all the vigor of midwinter, and then stepped into the cage of glass which had been constructed in the reviewing stand. Standing on foot warmers while the long parade shivered past, the new governor bowed his acknowledgments.

Considerable interest attached to Governor Pattison's reference to insurance in his message, as he is himself president of a life insurance company. He said:

"President Roosevelt's efforts for national supervision of insurance should have your approval—such national supervision as will surround the policyholders with additional safeguards and lessen the cost of his insurance."

CAN'T AGREE WITH CASTRO.

Complete Failure of Bermudez Negotiations Announced.

Washington.—Secretary Root has been notified by cable of the complete failure of the negotiations that have been in progress at Caracas looking to a settlement of issues between the Bermudez Asphalt company and the Venezuelan Government and the departure from Caracas of the company's treasurer, Clyde Brown. The secretary has accordingly called upon Mr. Calhoun, the president's special commissioner, for his report upon the controversy as the basis for immediate action on the part of the department.

It is probable that the report will be submitted to congress and some line of action suggested.

Took Poison by Mistake.

Cincinnati, O.—While sitting beside the sick bed of his brother-in-law, poison was taken by mistake by George Stevens on Monday, and he died within an hour at the city hospital.

His brother-in-law, Robert Louis Gillespie, aged 65 years, died an hour later. Stevens was a Harvard graduate and had acquired a competence on a line of steamers between Boston and New York, but lost most of it in the cotton crash two years ago.

Annual Report of Panama Railway Company Submitted.

Washington.—The annual report of the Panama Railroad company for the ten months ended October 31 last, submitted to congress Monday, shows that after payment of all fixed charges and cost of operation for the period covered there remains \$354,248, or somewhat in excess of five per cent on the capital stock. The total earnings of the road for the transportation of all kinds of traffic show an increase of \$302,204, or 18.77 per cent over the corresponding ten months of the previous year.

Statesman Sounds the Alarm.

Rome.—A former cabinet minister, who is a statesman of note and likely to return to power, has written an important article in the Corriere della Sera on the international situation in connection with the Moroccan conference. He says he thinks that the real antagonism is between Germany and Great Britain. War between these two countries, as it points out, would have dreadful effects, as it necessarily would involve other nations and lead to a retrogression of centuries.

Pleaded Guilty But Not Sentenced.

Camden, N. J.—After confessing to the charge of murder Joseph Wisniewski was on Monday given his freedom by Supreme Court Justice Garrison. Wisniewski shot and killed Antonio Grobowski who he found in company with his wife. Judge Garrison said: "In view of the fact that this man has not attempted to evade the charge made against him and because he has saved the state a great expense, I have been unable to bring myself to sentence him."

O'Brien Says He Was Robbed.

Philadelphia.—Jack O'Brien, the new champion pugilist, who has arrived home from San Francisco, where he defeated Bob Fitzsimmons, reported that while en route to this city he was robbed of a diamond stud valued at \$300, a draft for \$2,500, part of his share of the purse in the late fight, and \$200 in cash. O'Brien says the robbery took place on a sleeper near Pittsburgh. He did not discover his loss until he awoke. The diamond money and draft were in a wallet in O'Brien's pocket.

EXPLANATION DEMANDED BY BRITISH GOVERNMENT

Rojevstevsky Charges That the British Fleet Was Held in Readiness to Sink His Ships if the Japanese Failed.

St. Petersburg.—The remarkable allegation that the British fleet was held in readiness to destroy the Russian fleet if the battle of the Sea of Japan had gone in the Russian's favor, is made by Admiral Rojevstevsky in a letter published in the Novoe Vremya on Wednesday with the permission of the minister of marine. Referring to the absolute secrecy of Admiral Togo in regard to the disposition of his forces, Rojevstevsky declares that "this was unknown even to the admiral of the British fleet allied with the Japanese, who concentrated his forces at Wei Hai Wei in expectation of receiving an order to annihilate the Russian fleet if this, the final object of Great Britain, was beyond the power of the Japanese."

Mr. Spring-Rice, the British charge d'affaires, without waiting for instructions from his government, demanded an explanation from Foreign Minister Lamsdorff of the statements contained in the admiral's letter to the Novoe Vremya.

TORNADO IN GEORGIA.

Two Killed and Several Injured by Twister.

Albany, Ga.—A tornado passed over this town Wednesday afternoon, coming from a southwesterly direction, and spreading ruin and desolation over portions of a dozen blocks.

Ben Jones, a negro machinist in the employ of the Virginia-Carolina Chemical company and Jake Johnson, a 9-year-old negro boy, were killed. The known injured are Luta Glad-den, Jessie Davis, Annie Davis and Jessie Woodall. Hundreds of negroes in the city are homeless tonight and many have lost their household effects. The total property loss will reach \$150,000. The Virginia-Carolina Chemical company is the principal sufferer. Its destroyed buildings and machinery having been worth probably \$60,000. Very little of the destroyed property was protected by tornado insurance.

AFTER CHAUNCEY'S SCALP.

New York Legislator Asks Depew to Shed His Toga.

Albany, N. Y.—Senator Brackett of Saratoga, soon after the legislature convened on Wednesday, introduced a resolution demanding of Chauncey M. Depew his resignation as United States senator from this state. Later the resolution was withdrawn. The withdrawal followed a long debate in the senate. In recalling it, Senator Brackett specified that he intended to introduce it again at a later date. Senator Raines, who wanted immediate action, in which he desired to defeat the resolution, objected to its withdrawal, but upon roll call the withdrawal was allowed by a vote of 27 to 19.

MCALL RESIGNS.

Alexander E. Orr Selected as President of the New York Life.

New York.—John A. McCall on Wednesday resigned the presidency of the New York Life Insurance company, and Alexander E. Orr was appointed in his place at the salary of \$50,000 a year. Mr. McCall's salary was \$100,000. The board of trustees also cut down the number of second vice presidents so that hereafter there will be two of these officers, instead of three.

Starving in North Japan.

Victoria, B. C.—The famine in north Japan is causing thousands to starve, according to advices received by the steamer Empress of Japan. A government report says Miyagi, Fukushima and Iwate provinces, with a population of 3,821,537, is confronting the worst famine since the deadly one of sixty years ago. So great is the calamity in Miyagi that famine investigators report as follows: "The sentence of
